

International LT Semi-Truck Plate Mount (No-Drill)

Item #7160-1243-02

The International LT No-Drill Semi-Truck mounting solution allows for mounting directly from the dash. With the drivers comfort and safety in mind, this design allows for positioning close to the dash. Consideration in design to support other Gamber-Johnson mounting equipment were also made. Our Zirkona for Big Rigs would be the recommended accessories to complete solution and allow for better ergonomics for the driver.

Weight

1.8 lbs / 0.82 kg

Dimensions

Width: 4.75" / 12.07 cm

Height: 9.13" / 23.19 cm

Features

- Designed specifically for the International LT.
- This is a no-drill solution and will save time during the installation process and limit damage to dash.
- The plate is designed with knockout to allow a clean option for relocating the USB and power port for additional charging options.
- The plate option of this mount, leaves the final accessorising option up to you. In coordination with

either a tilting bracket or Zirkona for Big Rigs, you create a solution that will work the very best for your truck driver.

- Cut outs designed as part of this plate, help direct the wiring in a way that allows for a clean and professional install.

Warranty

Limited Lifetime Warranty
