

Semi-Truck Pivot Mount with AMPs and NEC Hole Patterns and Back Plate

Item #7160-1132

The Semi-Truck Pivot Arm Mount is designed for most commercial semi-trucks. This mount is built with versatility and durability in mind. It features multiple adjustable points that allow you to place your device at a comfortable viewing angle, and hold a tablet, phone or other device into the desired position.

Weight

2.45 lbs / 1.11 kg

Dimensions

Width: 2.3" / 5.7 cm

Height: 4.6" / 11.6 cm

Length: 8" / 20.32 cm

Features

- This drilled solution is mounted from the dash and reinforced with a back plate that is secured inside that dash. This helps to disperse the weight of the device being mounted reducing the risk of damaging the dash.

- Mount designed with the NEC and AMP's hole patterns to support your tablet or phone mount
- Designed for mounting in many vehicles
- Ability to adjust and then secure desired positioning
- Parts assembled using a thread locking glue at the warehouse

Warranty

1 Year Limited Warranty on Zirkona parts
