

# UX10

## FULLY RUGGED 10.1" TABLET

- 10.1" IPS FHD LumiBond® 2.0 sunlight display
- 8th generation Intel® Core™ processor
- Intel UHD graphics 620
- Full-size 82 key detachable backlit keyboard option
- Optional integrated 4G LTE broadband wireless
- 802.11ac next generation WiFi
- Purpose-built tablet with many configurable options
- MIL-STD 810G and IP65 certified
- Industry-leading bumper-to-bumper warranty

### 8th Gen Intel Core Processor

With the latest Intel Core i5 or Intel Core i7 processor, the UX10 rugged tablet was designed for speed and efficiency. Clocking in at up to 1.9GHz and with Turbo Boost speeds up to 4.8GHz, the UX10 has the power needed for the most demanding tasks.

### Built to Survive

The UX10 features an exterior case that is specifically engineered to protect the computer against drops, shocks, spills, vibration and more. The sealed design of the UX10 protects it against dust and moisture. The UX10 has been independently tested and certified to MIL-STD 810G, IP65 and MIL-STD 461G standards.

### Superior Display/Touch Interface

The UX10 features a 10.1" IPS FHD display that utilizes our revolutionary LumiBond 2.0 technology to achieve a display that is more readable, and offers better contrast and more crisp colors than any other rugged tablet display. The 10.1" widescreen display is ideally suited to run Windows and view your apps.

### Right-Sized Versatility

UX10's optimized display size and overall ergonomics are readily accepted by workers, which means improved productivity and faster ROI. The UX10 is a purpose-built tablet with many configurable options.

### Full-Size 82 Key Detachable Keyboard

Unlike our competitors' products that have small keyboards with small keys, the UX10 features a full-sized 82-key detachable backlit keyboard with standard-sized keys. The UX10 lets you type the way you're used to typing.

### Bumper-to-Bumper Warranty

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every UX10 rugged tablet.
