We Thought of Everything
So You Would Be Ready for Anything

Model: MMA302

MagConnect™ Mounting Solutions

Each MagConnect mount features a patent-pending magnetic connector that makes attaching and removing your tablet rapid and simple. The mounts are crafted of high-quality carbon fiber arms, this advanced material is surprisingly lightweight yet incredibly strong for increased durability and ease of use. The powerful combination of carbon fiber with carefully designed spherical joints produces mounts that are both easy to maneuver and sturdy to use. Paired with a compatible protective case or tray these mounts are ideal for virtually any environment in any circumstance.

Lightweight Durability

MagConnect mounts are built of high-quality carbon fiber arms. This superior material is lightweight and durable. The powerful combinations of carbon fiber with carefully designed joints produce mounts that are both easy to maneuver and sturdy to use.

Highly Flexible

MagConnect mounts come equipped with two spherical joints for multi-angle positioning; one at the top of the mount where the included tablet holder connects to the mount and one at the base. Each joint can rotate 360° to easily position your tablet for optimum ergonomics thus reducing neck and back strain.

Magnetic Ecosystem

Each MagConnect tablet holder is equipped to work with any MagConnect mount and designed to work with Apple SmartCover. And since technology is forever evolving, so is MagConnect. New tablet holders are crafted as new devices are released.

Aluminum Alloy

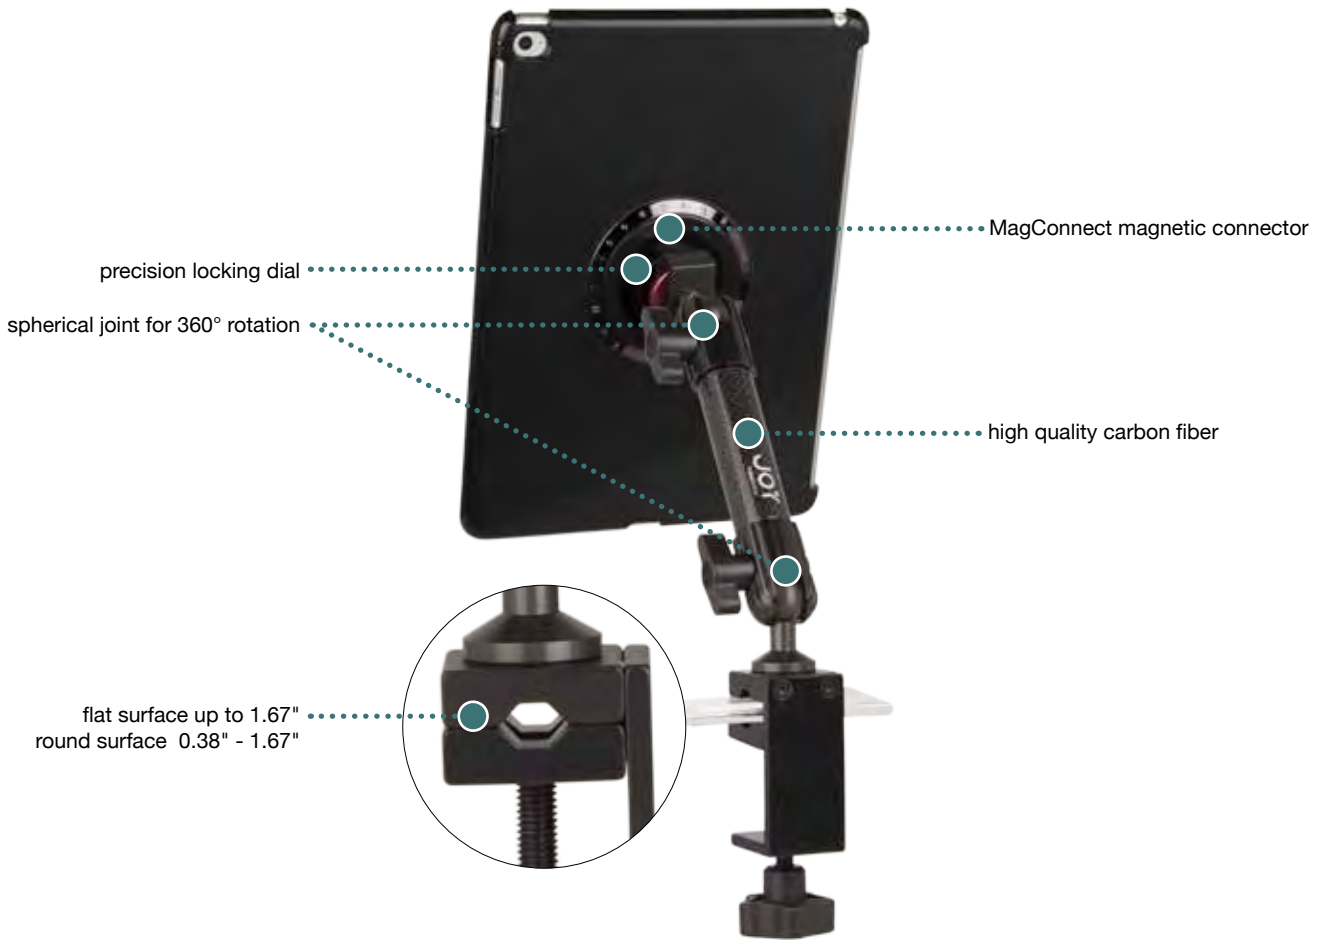

Each ball joint is carved out of one solid piece of aluminum alloy. This high quality material was selected for it's strength and durability. Ridges are precisely engraved into each ball joint to create friction when the mount arm and tray are secured in place.

Flat & Round Surface Mount

C-Clamp Mount

The MagConnect C-Clamp Mount is the best solution for attaching an iPad or tablet alike to a round or flat surface. The single carbon fiber arm of the C-Clamp Mount reliably mounts your iPad or tablet while keeping it nearby. This tablet mount is ideal for flat counters, poles, and rods such as warehouse shelving, corporate reception areas, office workspaces, back kitchens, restaurant front counters, creative organizations, and photography studios.

Horizontal & Vertical Flat Surface Mount

Wall | Cabinet Mount

The MagConnect Wall/Cabinet Mount attaches securely to flat surfaces for permanent installation. Whether you're monitoring patient records at a shared workstation or ensuring quality control in a factory, the Wall | Cabinet is the trusted way to keep your tablet in play and fold away when not in use. Installation is simple: four simple screws affix the mount to a wall stud, cabinet base (mountable base version), or metal surface (magnetic base version).

Vehicle Mount

Headrest Mount

Bring the magic of the tablet to your car's back seat. Use your tablet as an in-car movie theater for long trips or type e-mails during your carpool to work. The Headrest Mount attaches easily to most standard headrest poles so that you can swivel the tablet anywhere you like, even between the front seats. The Mount can be attached to the middle or top section of the poles without affecting headrest adjustments. Proprietary MagConnect™ technology makes attaching your tablet a snap, for a secure connection every time.

Wheelchair Mount

Wheelchair Mount

The Joy Factory is proud to offer tablet mounts for users with special needs. Users will experience the magic of using assistive technology without having to hold up their device. Those who use the tablet for long periods of time can now do so with limited fatigue and with better posture. Designed from the suggestions of wheelchair users, Wheelchair Mount's double-armed design adjusts to a wide variety of angles and can fold away when not in use.

Redefine Your Limits

Model: CWM100

Enclosure Types

aXtion™ Rugged Enclosures

Each aXtion enclosure is lightweight and rugged, and equipped with a MagConnect port. Having a MIL STD 810 drop test rating means it has been tested to withstand infrequent, non-repetitive drops from 4ft (1.2m). Sometimes rugged means bulky, but not when it comes to aXtion. We utilize the least amount of materials possible which in turn creates a lightweight slim profile. Equipped with a MagConnect connector means the enclosure will work with any of our proprietary MagConnect mounts right out of the box.

aXtion™ Edge Family

This family of enclosures offer all the standard specs the aXtion line has to offer. What makes this family unique is that it is designed for Surface products.

aXtion™ Bold Family

This family of enclosures offer all the standard specs the aXtion line has along with these additional features; a built-in rotating hand strap and 4-way stand and water-resistant. Both on and off the mount these enclosures streamline your workspace.

aXtion™ Pro Family

This family of enclosures offer all the standard specs the aXtion line plus the added waterproof protection. From education to manufacturing this enclosure is ready for anything in virtually any environment.

LockDown Security Enclosures

Offering peace of mind while displaying your device in public spaces is at the core of this enclosure family. Each unit comes equipped with a lockable backing with a cable that is tethered to an unmovable object.

Universal Enclosures

Ideal for environments with multiple devices being utilized. With an ever expanding line up of enclosures we are always working to expand these enclosures to meet the demands as devices are launched.

Rugged Enclosures

aXtion™ Edge

Designed with added protection at the corners to provide drop protection without adding bulk. Each enclosure is designed to nestle around your specific device so added features such as a stylus holder and heat channeling is added when needed based on the device specifications.
