DOCKING STATIONS AND VEHICLE MOUNTS

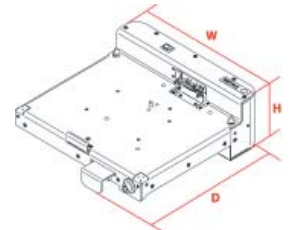

NEW

Getac B300 Docking Station

Antenna Pass-Through	Weight	Height	Width	Depth
NA	9.5 lbs	4.31"	12.13"	11.62"
Dual (TNC)	9.5 lbs	4.31"	12.13"	11.62"

Features

- Designed using MIL-STD-810F test procedures
- Design works with Getac B300 computers
- Internal/protected circuit board protects against dirt and dust
- Interlocking mechanism protects against connector damage and prevents engagements until computer properly mounted
- Brass locating pins for precise computer placement
- Floating docking connector for reliable docking connection
- Forward facing ports for low mounting capability, minimal cable strain and minimal swivel resistance
- Rounded edges to enhance personal safety
- Power switch with optional by-pass capability
- Push button lockable latch is an optional use and keyed alike (lock use is not necessary for continued, positive docking engagement)
- 3 year limited warranty (printed circuit board, docking connector and all sheet metal)
- Can be used with any **Motion Attachment**
- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance

Port Replicator

- USB (4) 4 pin
- Ethernet RJ45
- Serial (2) D-sub 9 pin
- External video D-sub 15 pin
- Keyboard
- Mouse
- Headphones/speakers
- Microphone
