Xplore Technologies® xStand Desk Dock

Complete Desktop Docking Solution for Office Environments

xStand Desktop Docking Station for iX104™ Line of Rugged Tablet PC's

Xplore Technologies® xStand is a versatile desktop docking solution ideally suited for use in a variety of office environments (e.g. on a desk, in a service bay, or IT configuration center). xStand is compatible with the full line of iX104 Tablet PC's. It features a host on onboard I/O and spare battery charger (active model), articulating arm for angle adjustment, and allows any iX104 Tablet PC to be used in either portrait or landscape mode. Additionally, support for Windows XP Tablet PC Edition "Grab n' Go" technology permits the user to hot dock and undock on the fly making all peripherals available without the need to change the iX104's operating state.

xStand Key Features

- Quick Release Docking Mechanism
- Angle Adjustment Arm
- Portrait / Landscape Orientation
- Stylus Holder
- Secure Stable Base with small footprint
- Permits iX104 to used as full desk top replacement
- LED Status lights provide user with feedback as to operating condition
