PocketJet 6 Mobile Printer

The PocketJet 6 mobile printers, with 200 dpi resolution, provide a high-quality output while helping to lower the cost of mobile printing. The PocketJet 6 comes with integrated USB 2.0 and IrDA interfaces, and an optional Bluetooth technology interface is available.

Rugged Mobile Printer QL / RW Series

- Center-loading media, smart Battery monitoring and an optional LCD
- Wireless options are easily integrated into your infrastructure
- Printers can be assigned IP addresses for monitoring over a network
- Rugged, Mobile and Lightweight

TruPulse 360 - The most compact and versatile laser rangefinders

It's almost an insult to even call this powerful measurement tool a "rangefinder" because its capabilities go far beyond just measuring a range. You can instantly measure slope distance, inclination and azimuth and calculate horizontal and vertical distance - all with a single push of a button. TruPulse 360 series has an integrated compass that allows you to measure azimuth and provides an extra onboard solution called missing line.

Planar LX1500PTI 15" Rugged LCD Monitor

The LX1501PTI is ideally suited for marine and mining environments where sun, moisture, dust, salt and sea fog create challenges for standard, off-the-shelf displays. It offers a sealed enclosure, optical bonding and an ultra-wide vertical viewing angle and an integrated touch screen. Optical bonding provides durability and contrast, which are essential for a display in a marine vessel and mining equipment.

MXI Portable Security Devices

MXI Security™ leads the way in providing superior managed portable security solutions designed to meet the highest security and privacy standards of even the most demanding customers. MXI Security solutions combine the power of strong user authentication, digital identity and data encryption to protect access to sensitive information and systems. MXI Security solutions enable organizations to satisfy multiple security needs with a single device, facilitating greater mobility without compromising security.

Mounting Solutions Available from the Following Manufacturers...
