Ultra-Portable Printing For On-The-Go Professionals

A Pentax PocketJet **Ultra-Portable** printer is one of the smallest, lightest and most effective full-page printing solutions you can buy for your on-the-go printing needs. Whether you use a laptop or a handheld device, the **PocketJet** will give you sharp text, crisp graphics, and high-quality documents in almost any environment, including extreme temperature and pressure variations.

At barely over 10" long and 1 lb. in weight, the PocketJet fits easily into your briefcase, computer bag, or can be quickly mounted in any vehicle or small work area. To ensure maximum portability, Pentax provides a long-life NiMH battery or optional car adapters that enable even greater mobility.

The powerful, compact, and feature-rich PocketJet printer provides **wireless operation with IrDA**. With this built-in Infrared Interface, you can print wirelessly from popular handheld devices. Just point and print.

Using **advanced Direct Thermal Printing Technology**, the Pentax PocketJet eliminates the need for messy and expensive ink, toner, or ribbons. No matter how many pages you print, you'll never run out of ink or increase the cost of your printed page. The PocketJet produces crisp, **laser-quality** text and graphics and completely eliminates the hassle of smudged prints.

Combine the PocketJet with Pentax Quality Paper and you have **weather-resistant printing come rain or shine**.

Fewer moving parts, combined with a rugged, durable design, will ensure uninterrupted printing even in the most tortuous work environments. Inside or outside, summer or winter, you'll always be able to print on the go.

Imagine The Possibilities Of Portable Printing

With the Pentax PocketJet you'll enjoy more efficiency, freedom and mobility than you ever imagined:

- Low cost-per-page
- Fast full-page portable printing...up to 3 pages-per-minute
- Nearly unlimited OS compatibility
- Virtually maintenance-free mechanism with very few moving parts
- Ultra-lightweight...only 1.12 lbs including the battery
- Free 1-year warranty and unlimited tech support
- No ink cartridges to replace
- Long-life NiMH battery
